

Achieving LEED® 2009 Points With GREENGUARD Certified Products

GREENGUARD Indoor Air Quality Certified® products are recognized as credit criteria for several different points in the USGBC's LEED 2009 Green Building Rating System™. Low-emitting products that qualify for GREENGUARD Certification or GREENGUARD Children & Schools™ Certification can be used in a number of ways to qualify for LEED points. These products are listed in the GREENGUARD Product Guide™ at www.greenguard.org. The following indicates how GREENGUARD Certified products can be used to achieve LEED 2009 points.
